

“ We were very happy with the Barneys.com site that MANOVERBOARD created ... The cool design and user-friendly functionality of the site well represented the sophistication of the Barneys brand. Web sales exceeded our expectations. ”

—Karl Hermanns, Executive Vice President, Barneys New York

MANOVERBOARD provides clear, attractive websites, identities, and printed materials.

Our strength is in combining innovative design with best practices on the Web and in print. Everything we create is technically polished, structurally sound, and visually engaging.

As practitioners of elegant and usable design solutions, we love finding beautifully simple ways to communicate complex ideas.

We work with large and small businesses, start-ups and non-profits, as well as individuals—and we're passionate about the success of our clients.

Strong information design, rich typography, and compelling imagery are key to our focus on simplicity.

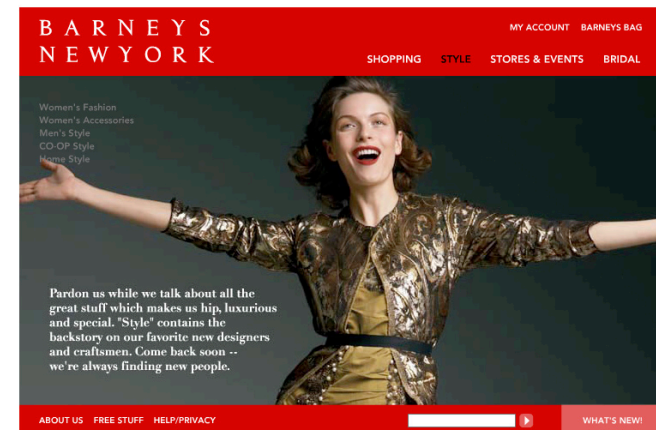

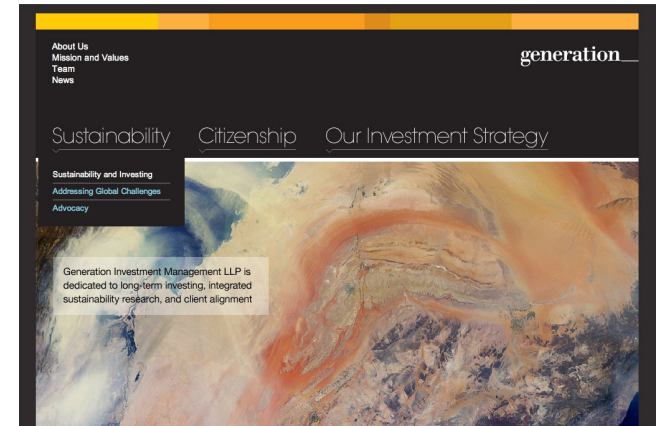

Websites are built with Web standards—and are accessible to everyone.

Nearly all of our identities have been in constant use for as long as we've been in business—over 7 years. And our brochures and reports garner respect because they communicate with ease.

We're easy to work with. We don't speak in technical jargon. Just give us a call or drop us an email.

We'll design it, beautifully.
